

Build a Print-Rich Environment with Bulletin Boards!

May 2025

Ages 0-3

Our Bookworm

Cover the board with green paper and add a purple border. Cut large circles from assorted colors of construction paper. Decorate one with a friendly face. Invite the children to decorate the others with crayons, markers, or paint. Use a black marker to write the children's names on their circles. Under their names, add the names of books they like. Line up the circles in a curvy line behind the head to make a long worm. Add the caption "Our Bookworm" using purple letters.

Ages 3-5

Reading Helps Our Minds Bloom

Cover the bulletin board with black paper and add a white border. Cut flower shapes from paper and offer one to each child to decorate. Add the title "Reading Helps Our Minds Bloom" to the center of the board. Attach the children's flowers around the title.

Ages 3-5

We Are Buzzy Learning!

Cover your bulletin board with light-colored paper and add a grass border to the bottom of the board, if desired. Add the title "We Are Buzzy Learning!" Give each child a 6" paper plate to paint like a bee's body. Cut two wings from wax paper to attach to each bee. Print a photograph of each child's face to serve as a head for the bees. Attach the bees to the board.
