March	Sand & Sea Springtime Sparkles	S, T, U 15, 16	Blue	Oval
April	Sunny Savanna Up & Away	V, W, X 17, 18	Yellow	Rhombus
May	Pet Friends Gardening & Growing	Y, Z 19, 20	Purple	Square
June	Summer Days Super Sports	Review	Review	Review
July	Pond Life Interesting Insects	Review	Review	Review
August	From Here to There Desert Discovery	Review	Review	Review

Welcome to Lillio Learning

Lillio Learning for Preschool Classrooms is a research-based curriculum developed for children ages 3 to 5 years old. The activities are designed to create enthusiasm for learning, to build critical school readiness skills, and are aligned to early learning standards established throughout the United States.

Benefits for Your Child

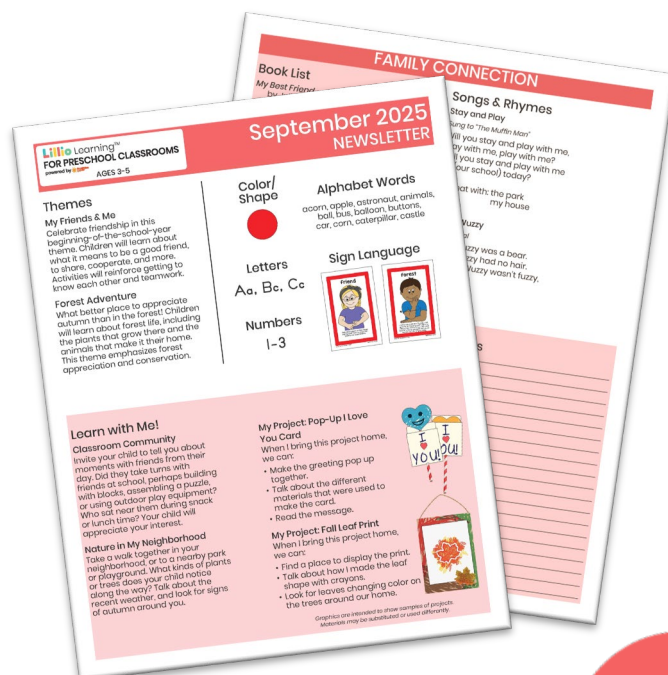

Our curriculum:

- Builds enthusiasm for lifelong learning
- Fosters problem-solving skills
- Promotes hands-on learning
- Nurtures curiosity and creativity
- Builds confidence, self-esteem, and autonomy
- Embraces diversity and community

Benefits for Families

- Knowledge that your child is participating in a curriculum program aligned with the highest quality standards in early childhood education.
- Built-in family engagement to keep you involved in your child's learning. Each bimonthly kit includes a Family Newsletter loaded with helpful information. You'll find "Learn with Me!" activities to do with your child at home, information about themes and concepts, vocabulary words, sign language, a book list, a recipe, and songs. Additional materials available online include calendars, blog articles, and music playlists.
- Exceptionally prepared educators and caregivers are able to spend more time each day interacting with children and less time prepping and planning.

What will my child learn?

Learning experiences are organized around themes that are related to children's natural interests, shared traditions, and seasons. Planning begins by defining the learning goals for each theme. This ensures that the offered learning experiences are purposeful and grounded in outcomes. Learning experiences promote skills development in the following areas:

Language/Literacy

Social/Emotional

Math

Approaches to Learning

Science

Physical Development/Health

Social Studies

Creative Arts

Developmentally Appropriate Practice

Our curriculum values play, fosters a positive learning disposition in each child, and provides a framework through which educators can ensure that the children's learning experiences are consistent with the program's goals.

The Science of Reading

Our approach to pre-literacy ensures children leave preschool with the skills they need to learn how to read. We emphasize the relationship between letters, phonemes, and written expression, as well as rhyming, read-alouds, and robust vocabulary.

A Focus on the Future

Our curriculum keeps children at the forefront. As research evolves, so do we! We promise to attend to the latest needs of the field, equip educators with strategies to foster learning across developmental areas, and nurture a love for learning that extends beyond the early years.
